RE- Wood Requirements

The Santa Clara Pueblo Tribal Administration would like to remind all tribal members of requirements for senior citizen wood distribution:

- ▶ **Must** be 65 years of age
- ▶ **Must** be an enrolled Tribal Member of Santa Clara Pueblo.
- ▶ **Must** have a fireplace and/or wood stove.
- ▶ **All requests are to be placed through the Senior Center at 505-692-6244**
- ▶ Once a load of wood has been delivered additional requests **will not be accepted for at least a minimum of three weeks.**
- ▶ **One load per household**, individuals who live in the same house will not receive a second load.
- ▶ Wood is delivered to those who reside within reservation boundaries. Those individuals who qualify but reside outside of Santa Clara Boundaries must make arrangements for pickup.

Remember, all wood deliveries are a privilege as it takes time and money to process, obtain, and deliver the wood. Wood deliveries are solely for those individuals that need it to heat their homes and is not to be sold or given away to anyone. If we see this occur, you will no longer be eligible to receive wood. Wood that is harvested is primarily Ponderosa Pine and mixed conifer and can potentially still be green. Woodlot is restocked on occasions and what is harvested is what is distributed.

Accounting/Procurement Department

Happy September from the Accounting/Procurement Department!!

The Accounting/Procurement Department continues to provide accounting/procurement services to all Santa Clara Pueblo departments who receive Federal and State, local, funding as well as the Pueblo's General Fund.

The department is responsible for the financial management in accurately identifying revenue received from these entities and accurately identifying costs incurred by these Federal and State funded programs. The Pueblo is a Self-Governance tribe and all programs are administered and accounted for at the Tribal level.

The department is audited annually on all federal and state funds received. The Tribal Council requires an annual audit of the general fund as well. All audits are performed by an independent CPA firm and the Pueblo's financial statements are prepared by the Department with the assistance of financial consultants. The 2023 audit is currently being worked on, the deadline to complete and submit is September 30, 2024. All prior year audits have been completed on time with no findings.

We have successfully implemented and continue to utilize the electronic timecard system (iSolved) for all employees to enter hours worked vs paper timesheets; and working very well. We are currently working on an electronic purchasing software (Microix) which will allow program departments to submit purchase request electronically. Our goal is to become "paperless" but continue to be accountable and transparent in all our transactions.

The team is currently working on updating Accounting/Procurement Policies and creating a Accounting/Procurement Handbook of our day to day processes, which will be a great tool for staff within the department.

News from the U.S. Department of Veterans Affairs (VA)

VA launches updated Burn Pit Registry

The U.S. Department of Veterans Affairs (VA) has announced the launch of a [redesigned Airborne Hazards and Open Burn Pit Registry](#) (Burn Pit Research Registry).

This new database combines veteran and service member data to help VA better understand, research, and ultimately improve treatment for the health challenges facing Veterans exposed to airborne hazards and burn pits during their military service.

Participating in or opting out of the registry does not impact nor determine eligibility for veterans' individual VA health care or benefits. Those who do not wish to participate in the registry can opt out by completing this [online form](#).

“The Burn Pit Registry is fueling groundbreaking research and enabling VA’s ability to identify and proactively address health challenges that toxic-exposed veterans face at a population level,” said Under Secretary for Health Shereef Elnahal, M.D. “While the registry does not impact an individual veteran’s health care or benefits, it does serve as a catalyst for advancing new and innovative treatments for the veteran population as a whole — including informing decisions related to presumptive conditions, more precise predictive medicine, and proactive veteran care. This redesign massively expands the registry and reduces the participation requirements for veterans, paving the way for critical research in the coming years.”

This redesigned version of the registry will incorporate extensive veteran feedback, expands participation criteria, automatically includes participants in the registry, and simplifies participation requirements.

Veterans and service members (living or deceased) who, according to DOD records, served in the military campaigns or theater of operations listed below during the designated time frame will be automatically included:

- Operations and Campaigns: Desert Shield and Desert Storm; Iraqi Freedom; Enduring Freedom; and New Dawn
- Iraq, Afghanistan, Kuwait, Saudi Arabia, Bahrain, Djibouti, Gulf of Aden, Gulf of Oman, Oman, Qatar, United Arab Emirates, waters of the Persian Gulf, Arabian Sea, Red Sea, Syria, Uzbekistan, and Egypt between Aug. 2, 1990, and Aug. 31, 2021
- Somalia since Aug. 2, 1990
- The Southwest Asia theater of military operations and Egypt any time after Aug. 2, 1990
- Afghanistan, Djibouti, Jordan, Lebanon, Syria, Uzbekistan, or Yemen any time after Sept. 11, 2001
- Associated airspaces with the countries listed above as well as the waters of the Persian Gulf, Arabian Sea, Gulf of Aden, Gulf of Oman, and the Red Sea

(continued on next page)

This list is in addition to those who were based or stationed at a location on or after Sept. 11, 2001, where an open burn pit was used in Afghanistan, Iraq, Uzbekistan, Egypt, or Syria. The data included in the registry includes deployment locations, military personnel information, and demographics to include gender, race, and ethnicity.

No medical information will be stored in the registry. Veteran and service member data will be accessible only to select VA epidemiologists and researchers and institutional review board-approved researchers. It will be used to conduct research on the cohort over a period of time. The results will inform the policy decision-making efforts of VA executive leaders, including those related to presumptive conditions.

To learn more, visit www.publichealth.va.gov/exposures/burnpits/registry.asp.

New VA Dashboard Has Latest PACT Act Data

VA has released a new [dashboard](#) highlighting the impact of this historic law for Veterans and their survivors.

Key results for toxic-exposed Veterans and their survivors to date include:

More than 1 million Veterans and their survivors have received disability compensation benefits under the PACT Act: VA has delivered more than \$6.8 billion in earned PACT Act benefits to veterans and their survivors. VA is delivering these benefits to veterans at the [fastest rate in the nation's history](#), on pace to break last year's record of claims processed by more than 27%.

Nearly 740,000 Veterans have enrolled in VA health care: Since Aug. 10, 2022, 739,421 Veterans have enrolled in VA health care — a 33% increase over the previous two-year period. This includes more than 333,767 enrollees from the PACT Act population (Vietnam, Gulf War, and Post-9/11 Veterans).

More than 5.6 million veterans have been screened for toxic exposures: 5,690,117 veterans have received free, 10-minute screenings for toxic exposures from VA under the PACT Act — a critical step to catching and treating potentially life-threatening health conditions as early as possible.

Record numbers of veterans are applying for earned benefits: Thanks to the [largest outreach campaign in VA history](#), Veterans and survivors are applying for their earned benefits at record rates.

Over the past two fiscal years, VA has received 4,414,334 claims for disability compensation benefits (including 1,774,158 claims with PACT Act conditions) — 29.8% more than the two fiscal years prior. There was an all-time record number of applications in 2023, and Veterans and survivors are on pace to break that record in 2024.

With the increase in enrollments under the PACT Act, VA is on track to deliver over 127 million health care appointments in 2024, representing a 6% increase over last year's all-time record number of appointments. Average wait times for new patient appointments have decreased by 8% in primary care and 9% in mental health compared to the previous year.

Additionally, VA has processed 400,000 more [priority group](#) upgrades for enrolled veterans since the signing of PACT Act compared to the two years prior. This includes more than 800,000 Veterans who were in priority groups 7 and 8 who received upgrades, meaning they are now eligible for more VA services without copays.
