# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

## Failure to Correct Significant Deficiencies

The **Santa Clara Pueblo Public Water System (PWS ID 063500166)** failed to correct significant deficiencies identified during a sanitary survey within the timeline required by the Safe Drinking Water Act. This resulted in a violation of the Ground Water Rule. Even though this was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

### What happened?

On December 14, 2016 EPA Region 6 Drinking Water Staff performed a detailed evaluation of the water system, called a sanitary survey. From these surveys, the EPA identified significant deficiencies with the water system's facilities, operations and management. Some of these deficiencies remained unaddressed from previous deadlines for correction.

### What should I do?

- There is nothing you need to do at this time. You do not need to boil your water or take other actions.
- You may continue to drink the water. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

### What does this mean?

This is not an emergency. If it had been, you would have been notified within 24 hours. But as our customer, you have a right to know what happened and what we are doing to correct this situation. Inadequately treated or inadequately protected water may contain disease-causing organisms. These organisms can cause symptoms such as diarrhea, nausea, cramps, and associated headaches. However, these symptoms are not only caused by organisms in drinking water, but also by other factors. If you experience any of these symptoms and they persist, you may want to seek medical advice.

### What is being done?

These deficiencies are being worked on to correct all of them by the next couple of years. Due to lead times on parts. Once received from the vendor then we will prepare for installation.

## N.M. NATIVE VOTING QUICK FACTS

### **When did native people become eligible to vote?**

Native Americans born in the U.S. were granted Full **citizenship** in that country according to the **Snyder Act of 1924**. Although the **Fifteenth Amendment**, established in **1870**, gave all residents of the United States the right to **vote**, regardless of race, **Native Americans** were not able to take advantage of these **rights** until the **Snyder Act**.

New Mexico's 23 Tribes, Nations and Pueblos make up 11% of our state's population.

Only 2% of the U.S. population is made up of Natives Americans.

The right to vote has been an uphill battle for Native Americans. The Voting Rights Act of 1965 helped to secure and protect that right for many Native Americans.

From the 2016 primary to the 2020 primary, voter turnout on Native American precincts in New Mexico dropped by nearly 1 percent.

Santa Clara Pueblo Tribal Council have implemented physical address locations for each building in the community. All elections will be accessible by all voters utilizing the state's absentee ballot applications and mailing in the absentee ballots.

There are more than 81 other court cases that have been litigated since 1965 over instances of dilution, discrimination against or intentional disenfranchisement of Native American voters.

Native peoples play a crucial role in local, state, and national elections, with the Native vote being pivotal in determining the outcome of the 2020 presidential election. Voting gives Indian Country a voice in policies and issues that impact our communities, including those related to the environment, healthcare, the economy, and education. Voting is also a way we can protect tribal sovereignty and our Indigenous rights, which can be threatened or strengthened by the outcome of a federal election.

**Miguel Trujillo Sr. of Isleta Pueblo, attempted to register to vote but was denied based on a 1912 provision of the New Mexico constitution. He sued the state and was allowed to vote after a judicial decision on August 3, 1948. Native Americans were not given the full right to vote in New Mexico until 1962, the last state to do so in the nation. Since then the State of New Mexico has delivered meaningful election changes making it easier and more accessible for NM Native Americans.**
